

**TRITON**  
RESTORATION LIMITED

## CHURCH OF THE ASCENSION, LONDON SW11

This Grade II\* listed church, dated 1876, is one of the most important buildings in the Borough of Wandsworth and one of many prominent local landmarks restored by Triton.

A comprehensive external refurbishment programme included the renewal of the Westmoreland slate roof, brick cleaning, stone and brick repairs and the overhaul of the leaded lights.

Particular attention was given to the sourcing of materials to match the existing. The bricks were matched with an obscure Sussex medium red, with the cement, lime and sand pointing matched to the original in accordance with English Heritage recommendations.
